ILL-DSF-4 DECORATIVE SPARKLE FIXTURE

APPLICATION

Small round lens, similar to the ILLUMINATI'S Star Lens but with a hole all the way through for star effects.

Has a dome shaped profile. Supplied with an back washer which can be optionally fitted.

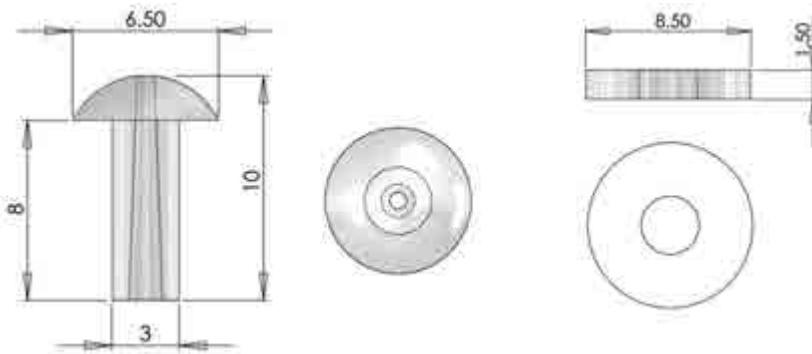

Makes it easier to drill the holes required for small fibres from 0.75mm to 1mm, while giving a sharper look to the light than the ILLUMINATI'S Star Lens.

This fitting does not allow as a good a seal as the Star Lens when used in damp areas.

The optional clear washer effectively expands the diameter of the lens where uneven holes have been drilled

SPECIFICATION

Material:	Polycarbonate
Colours available:	Clear
Size:	6.5 mm
Weight:	0.1 g
Mounting hole size:	3 mm
Fibre size:	0.75 mm, 1 mm, 1.5 mm polymer
