ILL-PA-9 END FITTING SPECIFICATION

APPLICATION

A small, round paver with a domed focusing lens. Manufactured from stainless steel with clear glass.

Ideal for use in lighting stair treads or creating scalloped uplighting as the beam can be focussed.

Our paver fittings are suitable for use in a variety of different applications and are the ideal solution to floor level lighting both indoors and outside.

Uses include:

- Marker lighting for pathways and entrances
 - Wall washing, inside or out
 - Uplighting columns or archways
 - Mood lighting in any room in the house, including wet rooms and pool areas
- Paver fittings can be installed in many surfaces including wooden floors, decking, paving, stair skirting and concrete.
